

Welcome to Kindergarten

BEING, BELONGING, BECOMING

What is Welcome to Kindergarten?

The Richmond School District is excited to welcome new Kindergarten learners at our Welcome to Kindergarten event. This fun and engaging event, hosted at each elementary school, is an opportunity for children and their families to meet the school team and to begin the partnership in supporting children's learning at school. This event will focus on honouring the unique stories of children and building relationships with families. Families are encouraged to play alongside children. Each child will receive a Welcome to Kindergarten bag that includes materials and suggested experiences to support children's transition to Kindergarten. We look forward to welcoming all learners to our district.
